The Department of Geology at Appalachian State University, Boone, North Carolina, invites applications for a tenure-track faculty position in structural geology at the assistant professor level beginning August 2012. We seek a geologist with expertise in structural geology with a field-based research program. Teaching assignments will include a course in structural geology and labs plus other introductory courses and/or labs. Candidates are expected to take advantage of the regional geology in the southern Appalachians in their teaching of upper-level courses. The successful candidate should have a PhD at the time of appointment, and must possess a strong commitment to undergraduate education and undergraduate research.

Applications must include a letter of interest, a statement of teaching and research interests, vita, copies of transcripts of all college and university work (official copies due upon employment), and the names and contact information (including e-mail) of three referees familiar with the applicant's teaching and scholarship. Send applications electronically via email to watersja@appstate.edu, or via regular mail to Johnny Waters, Chair, Department of Geology, Appalachian State University, 033 Rankin Science West, Boone, NC 28608-2067. Review of completed applications will begin February 1 and will continue until the position is filled.

The Geology Department at Appalachian State University has 18 faculty members and more than 90 majors. More information about the department is available at our website (www.geology.appstate.edu). Appalachian State is a comprehensive university located in the Blue Ridge Mountains of western North Carolina and is a member of the University of North Carolina System.
Appalachian State University is an affirmative action and equal employment opportunity employer. The university does not discriminate in access to its educational programs and activities, or with respect to hiring or the terms and conditions of employment, on the basis of race, color, national origin, religion, creed, sex, gender identity and expression, political affiliation, age, disability, veteran status, or sexual orientation. The university actively promotes diversity among students and employees. The university is committed to its affirmative action plans and seeks to deepen its applicant pools by attracting interest from a diverse group of qualified individuals. Individuals with disabilities desiring accommodations in the application process should contact Dr. Waters at watersja@appstate.edu. Any offer of employment to a successful candidate will be conditioned upon the university's receipt of a satisfactory criminal background report.
Stevens Institute of Technology's Howe School of Technology Management is seeking to fill a tenure-track faculty position at an Assistant/Associate Professor level in Finance. The successful candidate will engage in high quality scholarly research and develop and teach undergraduate and graduate courses in finance. Applicants must have a Ph.D. in finance, financial economics or related fields from an accredited institution. They must have a strong record of, and continuing potential for, quality research and teaching. Preference will be given to the candidates who exhibit potential for significant research contributions within an interdisciplinary community of scholars at Stevens focused on the behavior of financial markets, corporate finance, computational finance, and technological innovation in the financial industry. Salary is competitive and commensurate with experience and qualifications. Teaching expectations are commensurate with the research orientation of the Howe School and will include no more than four courses per year. Stevens offers an excellent benefit package that includes tuition benefits, a retirement plan, comprehensive health care plan, summer support, and the opportunity for continued professional development. The Howe School of Technology Management (http://howe.stevens.edu/) has over 1,200 students in its undergraduate, masters and doctoral programs. Stevens Institute of Technology is an innovative, entrepreneurial national research university that enrolls 2,300 undergraduate students and 3,200 graduate students in programs exploring the frontiers of engineering, science, and management. Located in Hoboken, NJ, minutes from New York City, the University maintains excellent connections with the corporate environment, and offers countless opportunities and partnerships. Applicants should apply online for job requisition number STM5521 or STM5522 athttp://www.apply2jobs.com/Stevens. In addition, please send a curriculum vitae, a statement of research and teaching interests, names of three references and a sample of published or other research to: Herminia Diaz, Howe School of Technology Management, Stevens Institute of Technology, Hoboken, NJ 07030 (herminia.diaz@stevens.edu). Stevens Institute of Technology is an Affirmative Action, Equal Opportunity Employer. Women and members of minority groups under-represented in academia are especially encouraged to apply. Review of applications will begin immediately and continue until the position is filled. We expect the successful candidate to join the Howe School for the 2012-2013 academic year.
RESPONSIBILITIES: This is a full-time, tenure-track position with a nine-month academic year appointment in the Aviation and Space Program. The incumbent must have an applied research agenda designed to enhance the quality of graduate student scholarship and fulfill the aviation education needs of the aviation industry. The responsibility for the position includes teaching undergraduate and graduate courses during the academic year (fall and spring semesters), creating/maintaining an aviation-related research agenda, providing academic advisement, and thesis and dissertation advisement for students pursuing masters and doctorate degrees. This faculty member will be assigned to the Stillwater campus, although there might be teaching responsibilities on other campuses. Additional duties will include university and college committee work and career counseling.

MINIMUM QUALIFICATIONS: Individuals seeking this position must possess: (1) earned Doctorate Degree, Ed.D. or Ph.D. (Aviation experience is preferred); (2) demonstrable interest in aviation related research, writing, and other scholarly activity; and (3) have extensive experience in the area of Security Systems and Security Management as it relates to aviation and aerospace. The applicant must be able to work cooperatively with faculty and staff in diverse academic programs; and demonstrate interpersonal and communication skills which promote collegiality and collaboration.

The process of reviewing applications will begin April 1, 2012 and will continue until a successful candidate is selected. To apply, send a letter of application, curriculum vitae, statement of research interests (including comments regarding future research pursuits), transcripts and the names of three references to
