- Explain complex topics using plain language
- Organize material strategically
- Incorporate accessibility strategies to enhance reading efficiency
- Apply style techniques that result in efficient, concise prose and appropriate tone
- Punctuate for clarity
- Design and incorporate value-added graphic displays of information

Course Materials
Required Text:
(Note: We will use the 3rd edition if the 4th edition is delayed, but it should be available December 2014.)

Readings will also be available on the course Canvas site and distributed in class.

Participation & Attendance
The Professional Communication: Writing course is a working seminar, and you will frequently work on your writing during class. You should always bring your laptop to class, so you’re prepared to make full use of the time that’s available. You’ll also be participating in workshop groups, during which you will be expected to make a contribution to your peers’ efforts. Active participation in this course will help you develop the writing, revising, and editing skills you will need to succeed professionally.

In order to fully participate in the course, you should make every effort to attend all class periods. If you must miss a class, please contact Dr. Harms ahead of time, and then work with a colleague to catch up with the material. Arriving late or leaving class early will negatively impact your final grade.
